

## LOS ANGELES DAILY TIMES.

YARNELL, CASTYLE & MATHES, Prop'rs.  
OFFICE NO. 9 TEMPLE STREET.

## NOTICE.

The Los Angeles Daily Times will be sold on all the trains of the Southern and Central Pacific Railroads, also on the Alhambra, Tropic and Santa Fe and Texas Pacific roads.

The Times office is connected with the telephone system of this city, and those desiring to advertise in or subscribe for this paper can do so by this means.

The Times can also be found at the news-stands of the Pacific and Occidental Hotels and Bus House, San Francisco.

(Notice of marriage, births and deaths are published gratuitously in the Times, and friends will confer a favor by handing in or sending to this office such notices.)

## AGENTS.

D. N. BROWN is the authorized agent for the Times at Santa Ana.

FRANK E. is the authorized agent for the Times at Anaheim.

## PRICE REDUCED.

On and after April 1st the subscription price of the LOS ANGELES DAILY TIMES will be as follows:

Week (delivered by carrier) - \$0.20  
or Six Months (by Mail) - 4.00  
For one Year (by Mail) - 7.50

## CONSUMPTION, AGAIN.

The investigations and discoveries of Dr. Koch, the Berlin physician, as announced by us a few days since, are attracting great attention among medical men in the East, and notably in New York. Many refuse to believe Koch's assertions. Dr. Tyndale, who has long made the treatment of consumptive patients a specialty, and has a very high reputation, doubts whether the tubercle in consumption does not precede the parasite and simply offer it a good breeding ground. If Koch is right in his theory of parasites, then the antiseptic treatment, which is now coming rapidly into favor, will answer all purposes, and kill both parasites and mould.

Tyndale uses a solution of carbolic acid injected directly into the lungs by means of a fine hypodermic syringe, which is plunged right into the breast. Another feature of the treatment is that germinicidal vapors are inhaled by means of a respirator. Assuming that all disease is due to a fermentation or mould growth, the success of the new treatment can be understood.

The discussion of the consumption cure in England has called out a letter in the London Times from one R. R. Maddison, who says that "in the spring of 1871 I was a consumptive patient in Madeira, apparently past recovery; that I then tried the use of carbolic acid by my bed-side as a protection against mosquitoes, and at once found that it had a beneficial effect on my lungs. I continued its use, and in the summer came to England, and have remained here quite well ever since. I have no doubt that the carbolic vapor inhaled destroyed the parasites." We incline to the opinion that a substantial improvement in the treatment of consumption will result from the discussions and investigations now going on, and it is hoped a reliable cure may be the result.

## THE ORAIN GAMBLE.

Selling grain after the manner of stock-gambling has been formally inaugurated in San Francisco, at the Stock Exchange. The circumstance calls forth some comments from the Sacramento Record-Union that are readable. That paper says those who are engaged in the enterprise are in no better occupation than are the proprietors of faro games. They live by fleecing their neighbors. They have as a whole done infinite mischief to the Pacific Coast, and they cannot point to a single really valuable result as the work of their hands. The management of the Record-Union resides within the influence of the stock craze, and knows whereof he speaks, and we can add our testimony that its arraignment of the San Francisco gambling den is true. We copy:—

The Stock Exchange has for years made the rich richer and the poor poorer. It has been an open drain in which three-fourths of the surplus earnings of thousands of industrious and hard-working men and women have been sunk. Where it has brought wealth to one it has entailed ruin upon a thousand. It has enabled a little group of rich men to bleed the public at will. It has covered up and protected the most colossal and shameless frauds in the administration of mining property. It has served as a machinery for swindling on a grand scale. It has repeatedly paralyzed industry, put a stop to improvements, prevented the establishment of manufactures. All its tendencies have been sinister and immoral. It has operated as a constant temptation to the weak and foolish. It has led men to suicide and women to shame. It has developed the most sordid, knavish, brutal qualities among the men who have been devoted to it. It has been the cause of brothers robbing brothers, of fathers ruining sons, of intimate friends lying to and cheating one another, of the breaking up of homes, of treachery and fraud and even murder.

## FRUIT PROSPECTS.

From all sources in this county we hear very favorable reports of the fruit crop prospects. A. F. Kercheval, Esq., himself largely engaged in fruit-raising, assures us he has never known more promising prospects, especially for peaches, apples, pears, apricots, nectarines, etc. In fact, he begins to wonder what will be done with the abundant crop we are sure to have. We had but to remind him of the continually growing market for fresh fruit, which, like the horse-leech, cries for more, with each successive year. And when the demands from abroad for green fruit are filled, the canneries stand ready to take any surplus, were it four-fold any reasonably expected amount. There has been no damage whatever from frosts.

## THE EAGLE CONCERT.

A Full House Greeted the Holder's Boys Last Night.

The entertainment by the Eagle Dramatic and Minstrel Company was given last night at Turnverein Hall to a full house, many not being able to find seats. The programme was admirably arranged and excellently carried out, especially the minstrel first part, which would have been creditable to a professional troupe. The Corps numbers among its members some very fine talent, and their entertainments in the future will not lack for a generous patronage. In the first part Messrs. G. Lamp, Billy Rorick, M. L. Starin, H. McKee, F. Holbrook, Fred. Lovell, Jesse Hyde and J. Bloeser, each sang a solo, and as high-toned gentlemen of color, acquitted themselves with honor. W. F. Poor, in a character song from Uncle Tom's Cabin, received a hearty encore. A scene in Dr. Crawford's office, in which J. Bloeser and G. Lamp participated, was too ludicrous for anything; the drill was very good and the impromptu reference to the officers of the company in Atwood's song took well. "Oscar Dear," in character by Geo. Atwood, took with the small boys immensely; in the finale, "Military Discipline or Peter's Strategy," Miss Jennie Hanbury was substituted for Edith Turner, at the last minute, Miss Turner having had the misfortune to sprain her ankle. It was very well performed however, and all went home fully satisfied with the entertainment.

## PERSONAL MENTION.

Eli Perkins lectured Saturday night in Sacramento.  
Judge E. M. Ross came down from San Francisco Sunday.  
Ex-Senator McClay, of San Fernando, was in the city yesterday.  
Judge Blackstock and wife, of Ventura, are at the St. Charles.

J. B. Cohn, the dry goods and clothing dealer, will arrive home overland this morning.

Mr. G. W. Peachey arrived home on Sunday from a business trip to San Francisco.

Mr. H. C. Sigler, of Indianapolis, Iowa, is very low with consumption, and was taken Sunday to Santa Monica.

J. J. Bunn, a druggist of San Jose, arrived in this city yesterday. Mr. Bunn has closed out his business in San Jose, and thinks of settling here.

Hon. M. G. Cobb, a prominent lawyer of San Francisco, the attorney for that portion of the Temescal tract claimed by the Serrano heirs, most of which is now owned by Mr. R. S. Baker, and which includes the famous tin mine, is in the city.

## Wedded.

A quiet wedding took place last evening at the residence of W. H. Northcraft, on New High street, just north of Temple. Mr. C. B. Hanna, a conductor of the Yuma division of the Southern Pacific Railroad, and Miss May Hanna, of Fairburg, Illinois, were united in the holy bonds of wedlock by Elder B. F. Conter. Only a few friends were present. The bride arrived last Sunday from her home in Illinois.

## WESTMINSTER DOTS.

(Anahem Gazette.)

Mr. Oscar Griffith has sold his place to Mr. Graves from San Bernardino.

John V. Anderson is breaking up about twenty-five acres of the peat and tule land on his forty in the Laguna, east of town, and will raise lots of corn when he gets the ground in condition.

John Wallace, Uric King, Henry Wayman, Henry Chase, George Williams and several others have gone to the Centinela to look after the harvesting of their crops sowed there last fall and winter. They report that they will be light.

Mr. Geo. and T. C. Hull and Captain Wilson were out fishing one day since our last letter and caught over sixty Barracuda, and enjoyed their trip very much.

Installation of officers of I. O. G. T. took place last Friday, the 12th. Reports showed a membership of 74, a respectable balance in the treasury, and a flourishing condition generally.

The question has been raised as to whether we may not overdo the grape business in California. Good judges say there is no danger. The grape yield of the country last year was but 9,000,000 pounds, while France and Germany each produced about six times that amount, yet there was a European deficiency, and American products had no perceptible influence on the market. The production of grapes can be increased immensely before the market can be overdone, and for wine grapes there is no sign in the social heavens that the use of the stimulating beverage will be so far abridged during this generation as to seriously affect vineyard property.

And when the coming millenium shall take the present heavy tax off from alcohol, the consumption of it will be increased for mechanical purposes and for fuel a thousand fold.

PHOP. KELLOGG and Moses, members of the faculty of the State University, will be in Los Angeles to examine applicants for admission to the University on the 1st, 2d and 3d of June. During their stay here they will each deliver lectures on popular subjects, if suitable arrangements in regard to a hall can be made. Prof. Kellogg is Professor of Latin and Classical Literature, and Prof. Moses is Professor of History. Our people may expect from them lectures of literary value and scientific worth.

The coal oil refineries in Alameda are turning out 250 barrels of refined oil, or an aggregate of 1,000 cases per day, as put up for the trade in cases of two five-gallon tins each. Fifty barrels of this crude oil are furnished by the wells in the Santa Cruz Mountains a few miles below Santa Cruz, and 170 barrels come from the wells in the San Fernando range, while the remaining thirty or forty barrels daily required are the product from points near Los Angeles.

## LAST NIGHT'S DISPATCHES.

The San Francisco Board of Health and the Altonover.

Postmaster Backus Confirmed—A Fire in the Shoe-Fly Hoisting Works—The Indians Coming Back.

Associated Press Dispatches.

SAN FRANCISCO, May 22.—The Board of Health this afternoon adopted an ironclad resolution not to permit the passengers of the steamer Altonover to be transferred to a hulk. They agreed to permit the sick to be removed to the pest house on a guarantee of the consignees of the steamer that they would pay all expenses. No new cases to-day.

## HELD FOR SAFETY.

It was decided to hold the steamer Strathgery in quarantine until its safety of landing passengers is assured.

## CONFIRMED.

Samuel Backus was confirmed to-day Postmaster at San Francisco.

## SPARKS' SECOND TRIAL.

The second trial of Capt. Sparks, of the ship Granger, indicted for cruelly beating the seamen during the voyage from Antwerp to Wilmington, was commenced to-day in the U. S. Court. A jury was empaneled and the opening statements were made by counsel.

California, 30c; Virginia, 40c; Curry, 14; Mexican, 54; Ophir, 24; Union, 24; Nevada, 24; Eureka, 16; Santa Fe, 20; Best, 44; Overman, 5c; Belle, 64; Point, 40c; Bullion, 25c; Savage, 75c; King, 17.

## Senatorial Delegate.

LEWISBURG, Pa., May 22.—The Independent Republican Convention elected Chas. S. Wolcott Senatorial Delegate.

Fire in the Shoe-Fly Hoisting Works.

EUREKA, May 22.—The small hoisting works on the Shoe-Fly mine, Ruby Hill caught fire Sunday morning and the flames were communicated down along the wooden work of the shaft and ladder. Four men were working at the bottom of the shaft, one hundred feet deep. They all started to climb out, but failing, they had to climb through fire, and for the last three feet of the shaft they were roasted.

Two of them were killed. One of them, in his agony, rushed blindly around in the sage brush until he was captured and brought into camp. His injuries are probably fatal. The others were not considered fatal. The two men below were nearly suffocated, but the crowd of miners threw snow down the shaft first, and then forming a line to the water works cast water down and saved them.

## San Bernardino Stirred Up.

SAN BERNARDINO, May 22.—The report of a pistol on the corner of Third and D streets, about seven o'clock this evening, caused considerable excitement. In a moment one of our business men, with two officers in his wagon, was running his horses at the top of their speed up Third and down E street, while an officer on foot was driving his man in the same direction.

He was immediately captured and brought back. Upon inquiry it was learned that the prisoner had been arrested for indulging in a little set, and while being taken to prison had struck the officer and run.

## Driving the Indians Back.

TOMBSTONE, May 22.—A Mexican Custom House officer who arrived here to-day reports that Jubs' band of Indians are being driven across the line into Arizona. It is believed that the Indians are aiming to reach the San Carlos reservation, where they will quietly mingle with the friendly tribes already there. Gen. Reyes is in command of the pursuing Mexican forces.

## Brady's Bail.

WASHINGTON, May 22.—Gen. Brady gave \$30,000 bail under the new indictment.

## FILIBUSTERING DEMOCRATS.

The House Democrats began to filibuster again against the consideration of the Mackey-Dibble contested election case.

## Star Route Matters.

PHILADELPHIA, Pa., May 22d.—The Grand Jury has been asked to act on the bills for new indictments in the cases of the star route defendants arrested here.

## Extenuating Horse Thieves.

ST. LOUIS, May 22.—A Post dispatch, Little Rock special says a band of vigilantes has been chasing eight horse thieves in Missouri for over two weeks. Three have been captured, near Kirbyville and lynched. The other five escaped, but one has been since killed, one mortally shot, and a third captured and placed in jail. The other two are now hemmed in on the White river, and will be captured to-day and lynched.

## Developments in a Murder Case.

MCOSATINE, Ia., May 22.—There are new and startling developments in the McMenorson fratricide, twelve miles west of here. The girl Mary, who Saturday declared she shot her father in self-defense, her brother and her older sister, are here in jail. The Daily Journal has a full confession from the two girls, showing that the murder was committed by their brother in order that the children might have things their own way at home, and that it was arranged that the youngest sister should acknowledge the shooting with the idea that the plea of self-defense and her extreme youth would save her from punishment, and thus her sister and brother would escape punishment also. There is much excitement over the case here.

## Arrested on Suspicion.

PHILADELPHIA, May 22.—James Finnegan, a passenger from Liverpool on the ship British Kingdom, was arrested on suspicion of complicity in the Dublin murders.

THERE are two ships with railroad materials—the Duke of Argyle and the Alameda—long overdue at San Diego, and fears are entertained that they have gone down.

The State Board of Equalization has reduced the assessment on the Southern Pacific Railroad from \$16,000 to \$10,000 per mile. This is about the proper figure.

## NEW TO-DAY.

DAVID E. ADAMS & CO., Real Estate Agents. Office in Western Union Telegraph Building, 100 N. Main street, Los Angeles, Cal. P. O. Box 238.
